

Green Today, Greener Tomorrow – Green Packaging, Pure Manufacturing

BIO EARTH TECHNOLOGY

PIONEERING SUSTAINABLE
PACKAGING SOLUTIONS

Welcome to Bio Earth Technology, where our dedication to 'Green Today, Greener Tomorrow' shapes our vision. We are steadfast in our commitment to 'Green Packaging, Pure Manufacturing,' providing advanced solutions that respect the planet.

Since 2003, we have been pioneering sustainable practices and innovative technologies in eco-friendly packaging. Our mission is to revolutionize the industry, ensuring that with every product and service, we advance towards a more sustainable future.

Join us as we continue to lead with innovation and sustainability at the heart of everything we do.

BioEarth
TECHNOLOGY

ECO-FRIENDLY AND SUSTAINABLE FOOD CONTAINERS

1.

Constructed from Wood Pulp and Plant Fibers

Our products are crafted with environmentally responsible wood pulp and versatile plant fibers, emphasizing sustainability and repurposing.

2.

Utilizes Renewable and Sustainable Materials

Combining the sustainable attributes of wood pulp with the regenerative nature of plant fibers, our products showcase eco-friendly innovation.

Made From Plants

Good for Hot and Cold

3.

Compliant with ASTM Standards and BPI Certified

Meeting ASTM regulations for compostability and holding BPI certification, our items are proven to decompose effectively in commercial composting facilities.

4.

Resistant to Grease and Cuts

Designed for durability, these products withstand both grease and cuts, ensuring their practicality in various settings.

5.

Suitable for Microwave Heating and Freezing

Our containers are crafted for modern lifestyles, safe for use in microwaves and freezers, providing convenience and adaptability.

Microwave & Freezer Safe

We recommend testing in your kitchen to ensure satisfaction.

Your Design, Your Style

Get in touch for info.

OUR PRODUCTS:

SUSTAINABLE MOLDED FIBER CONTAINERS

Our range of eco-friendly products is a testament to our commitment to the environment. Made from renewable resources like wood pulp and plant fibers, our containers are not only biodegradable and compostable but also versatile enough for various applications.

They're microwave and freezer safe, BPI certified, and tailored to meet the needs of an eco-conscious market.

FOOD BOWLS

B250
[250 Bowl]

Size (mm) : 115x45mm
Pcs/Ctn : 1000 Weight (g) : 6

ADVANCED MACHINERY FOR ECO-PACKAGING

The heart of our production lies in our advanced machinery, including the THM Pulp Molding Machine and Bio Earth Advanced Molds. These machines epitomize efficiency and sustainability, designed to minimize waste while maximizing productivity.

They are the backbone of our eco-packaging solutions, delivering consistent quality and reliability.

BESPOKE PACKAGING DESIGNS

At Bio Earth, we understand that packaging is part of your brand's story. That's why we offer bespoke packaging designs, allowing for customization that reflects your brand's identity and values.

From unique shapes to embossed logos, our packaging solutions are as unique as your business.

OUR STORY: A TIMELINE OF INNOVATION AND GROWTH

Bio Earth Technology's journey began in 2003 as a trading company focusing on eco-friendly machinery. Over the years, we've expanded our expertise and facilities, launching our own machinery and products, and growing in response to global demand.

Today, we stand as a leader in sustainable packaging solutions.

2003

Began as a trading company, focusing on eco-friendly molded fiber forming machines, initiating our sustainable packaging journey.

2008

We established our own engineering team, enhancing our expertise in creating versatile molded fiber forming machines capable of handling various eco-friendly materials like bagasse, bamboo fiber, and wood pulp.

2009

Debuted our new facility, where we used our own machinery to fabricate molded fiber tableware from eco-friendly materials like wood pulp, targeting the U.S. market.

NOW

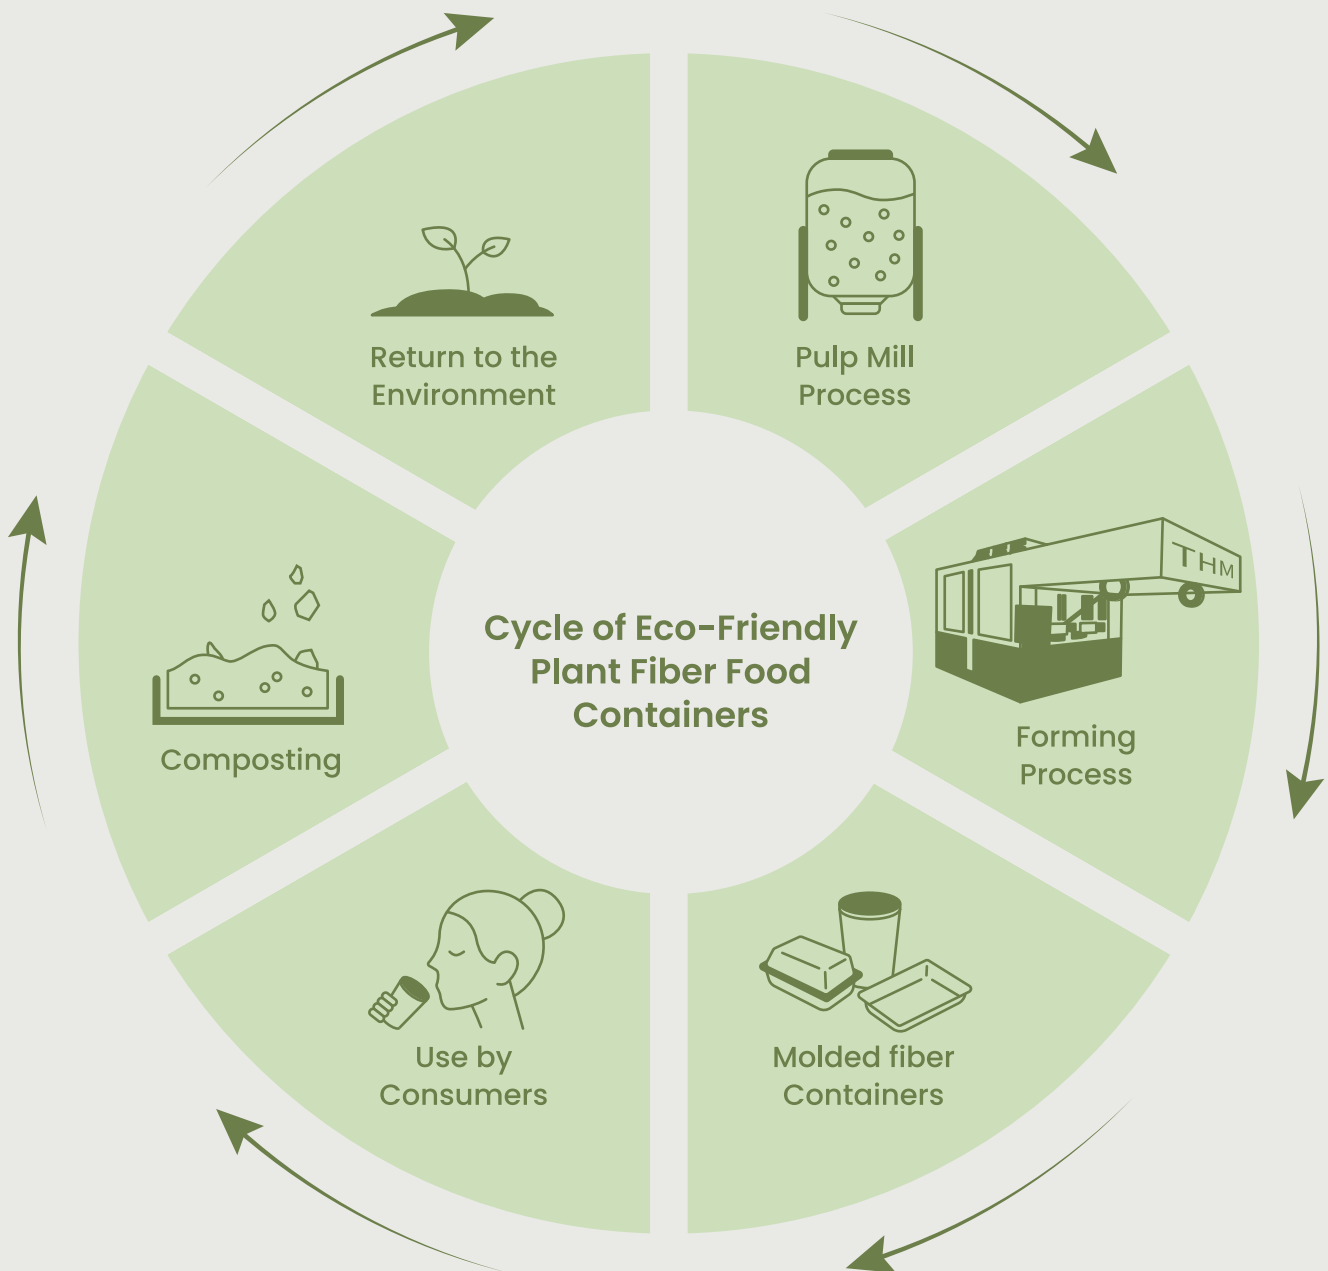

Bio Earth Technology and Cheer Moon have expanded in response to increasing demand, primarily focusing on producing and selling eco-friendly molded fiber tableware, along with the machinery.

COMMITMENT TO SUSTAINABILITY

Sustainability is at the core of everything we do. From the materials we use to our manufacturing processes, we are dedicated to reducing environmental impact.

We continually strive to improve our methods, ensuring that our products are not only good for your business but also for the planet.

CERTIFICATIONS

TURNKEY SOLUTIONS:
**FROM CONCEPT
TO COMPLETION**

Our turnkey solutions provide comprehensive services, from the initial design and concept to final production and implementation.

With a focus on customization and efficiency, we ensure that our clients receive not just a product, but a complete solution that meets their specific needs.

CONTACT US

Connect with us at [services@bioearthtech.com] for inquiries, orders, or more information about our sustainable packaging solutions.

Our team is ready to assist you in making the eco-friendly choice for your packaging needs.

Green Today, Greener Tomorrow – Green Packaging, Pure Manufacturing

Growing Greener :

Over 20 Years of Pioneering
Eco Practices.

Join us on our journey to a 'Greener Tomorrow.' At Bio Earth Technology, we're not just shaping a sustainable future; we're actively creating it with 'Green Packaging, Pure Manufacturing.' With every innovative packaging solution, we pledge to lead the way in sustainability.

As we continue to grow and innovate, we carry with us our enduring commitment to 'Green Today, Greener Tomorrow.'

Let's partner to make a meaningful impact on the planet with packaging solutions that embody purity in manufacturing and innovation in design.
